

Your dukaan's AI team

Describe the business.
Start your approved cloud team.

Track 3 - Autonomous AI Teammates

Proposed fit with Paytm for Business

Daily work competes with the counter

One owner

The shop stays busy.
The work keeps piling up.

Ready teammates give each
recurring job an owner.

Counter

Bills, prices and quantities

Customers

Enquiries, orders and bookings

Khata

Credit records and reminders

Online

Posts, messages and follow-ups

Meet the merchant team

Arjun

Counter Team

Reviewed bills from
lists, photos or voice

Naina

Khata Team

Credit explanations
and reminder plans

Tara

Online Dukaan

A catalogue storefront
and accepted orders

Naman

Business Insights

Collections, pending
work
and owner summaries

Describe the business once. Review the facts. Start the relevant teammates.

An unpaid invoice becomes useful completed work

Milan reads the accepted invoice. The owner can inspect every action.

Actual AI. Real cloud workers.

Source invoice, usage and saved receipts.
Naina flags an unsettled payout.
The owner reviews the result.

Fictional merchant. Simulated customer channels and payments. No money moves.

The same team reaches beyond the counter

Riya

Marketing Team

Approved Instagram posts,
eligible comments and DMs

Vijay

Website Team

Your assets, design and copy
A published business URL

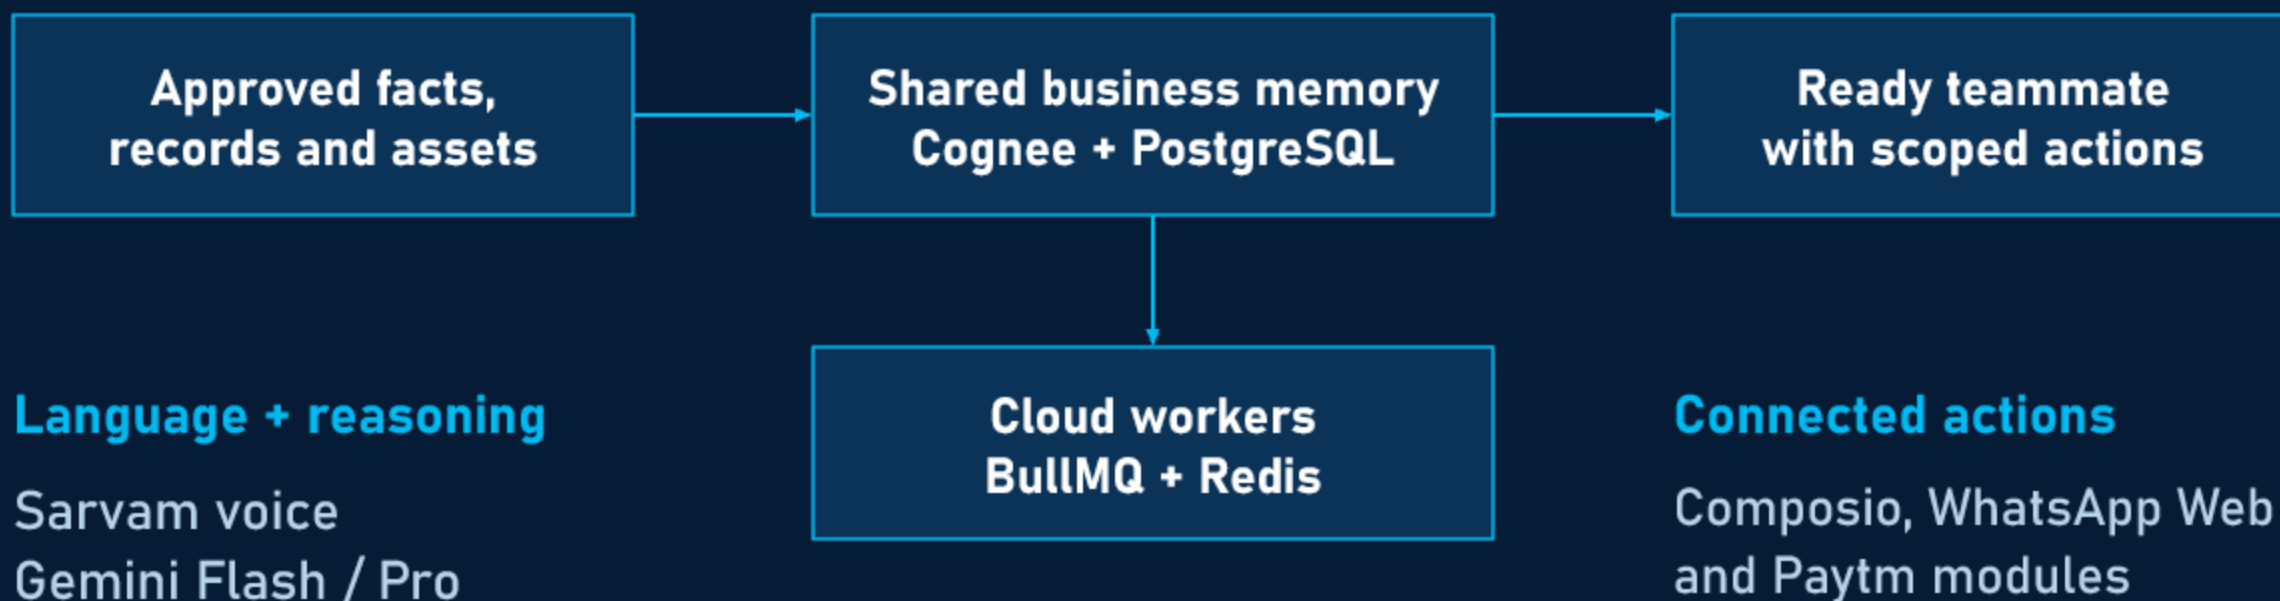

Lakshya

Growth Team

Public sources, prospect fit
and reviewed Gmail outreach

Also ready: Meera for Gmail, Milan for reminders, Sia for business help,
Kabir for customer requests and Ira for growth insights.

One business memory for every teammate

Browser closed, jobs continue. The owner can pause or take over.

Spend reasoning where it earns its keep

Model routing

Flash for recurring merchant work.

Pro HIGH for website creation.

Saved progress

Resume completed stages without repeating their work.

Bounded memory

Reuse unchanged indexes.

Retrieve relevant approved excerpts.

Predictable visuals

Reusable templates and merchant-approved photos.

One real quote

Recorded model usage · 5 October 2026

Component	Recorded tokens
Input	4,763
Output	252
Total	5,015

Gemini 3.7 Flash · one completed cafe quote.

Usage is observed; total delivery cost is unmeasured.

Tools, memory, voice, hosting and support add cost.

A monthly AI team for each business

Plan	Monthly price	Indicative scope
Dukaan	₹999	2 active teammates
Business	₹2,999	5 active teammates
Growth	₹7,999	All ready teammates

₹900

delivery-cost ceiling target
on the ₹2,999 plan

Subscription + approved extra usage

Optional setup and bounded website packages
add revenue when the merchant needs them.

Useful work. Reviewable results. A product you can try.

Try the proof

A prepared store. Your own isolated workspace.

Less repeated owner work

Collections, replies, records and a website—
with approvals and sources the owner can review.

2,699 unit tests passed from the clean source bundle.
Cloud completion and published-site evidence included.
